

February 1, 1948 to July 28, 1949 (plus 1951) Diary

Robert Haley Asher

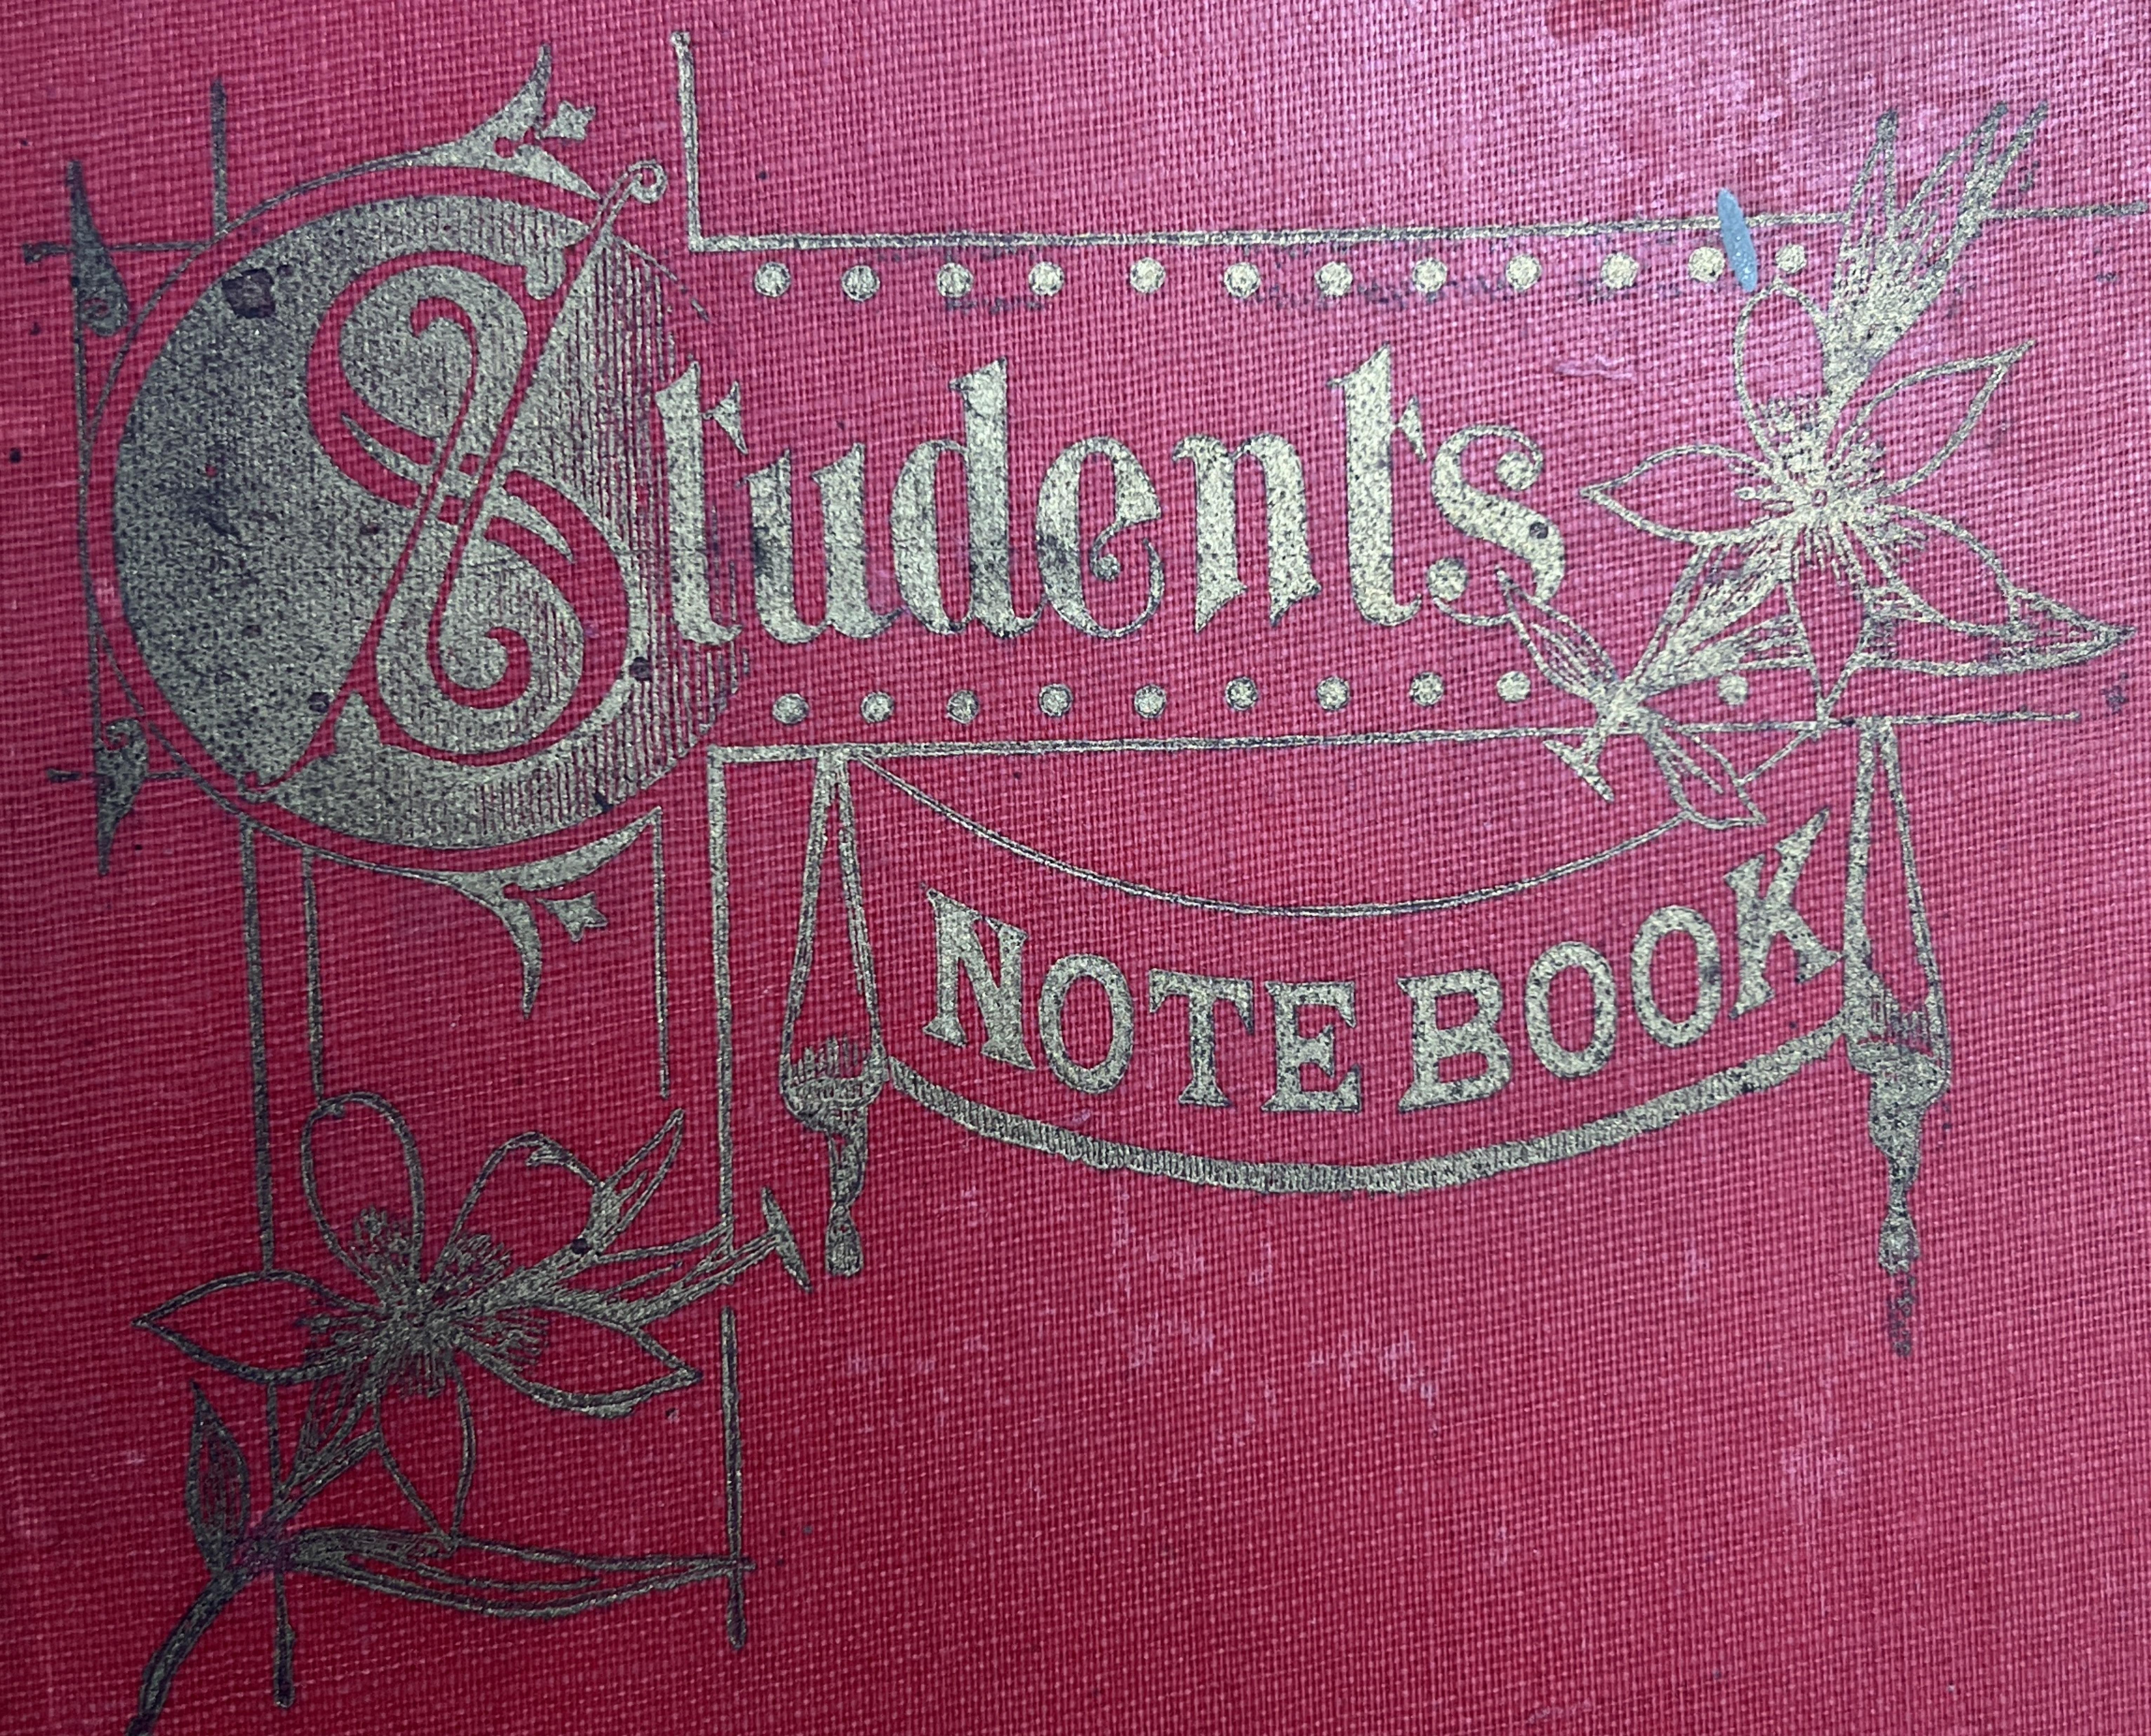

Robert Haley Asher, September 9, 1945

Robert Haley Asher was born 28 March 1868, to Josephus Marion Asher, who was the first commercial nurseryman in the San Diego area, providing buyers with fruit trees, shrubs, & vines from his Fruit Vale ranch in Paradise Valley, National City. Robert Asher settled on Palomar Mountain in 1903, and ultimately had 160 acres, living in the Pauma Creek / State Park area. Robert Asher also lived off Palomar Mountain part of the year working as a nurseryman among other things. On Palomar, Asher photographed summer campers, then developed and sold them photos; he also sold postcards of his photos, trapped animals for pelts, collected and sold wild plants, picked apples, and worked odd jobs. Asher moved off Palomar Mountain in 1946 to his sister Mrs. Josephine A. Vacher's place on Fuerte Drive in El Cajon and continued to visit Palomar Mountain until 1951. Asher passed away on 25 April 1953.

These digitized pages are from the Robert Haley Asher papers (held by Peter Brueggeman). When Josephine Vacher's son vacated the family house in El Cajon, the family gave Robert Asher materials at that location to Peter, due to his Palomar Mountain history interests. Digitization of these materials and posting them to the Internet Archive is intended to enhance and preserve access to these materials.

Jan. Sunday ^{Tuesday} Edmund Rucker has
a story about a "Picturesque Retelling"
long known as the "Hermit of Palomar".
Rucker and his wife get here about
sunset for an interview. He asks
a lot of pertinent - and perhaps
impertinent - questions, I answered
as best I could and lent him my
typewriter-written story about Uncle
Nate - for Rucker's information,
but not for publication. Also
lent him my diary with entries
made in 1940.

Jan. Thursday, Rucker has article
in Union about Uncle Nate quoting
me at some length - all taken word
for word from my Nate story.

Jan. Finished mounting button
collection No. 1. Eight thousand and one.
